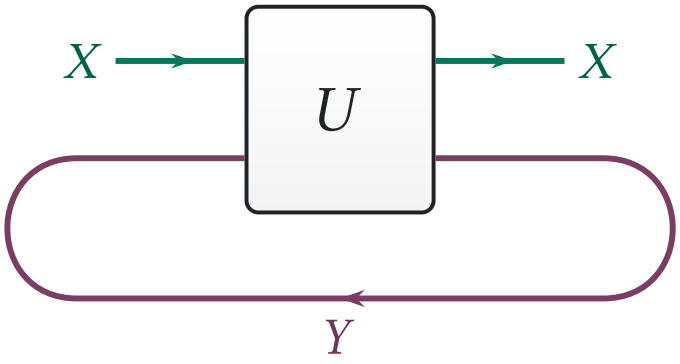
(a) the loop, drawn as feedback



=

(b) the same composite in $\mathrm{Int}(\mathscr{C})$

	$1 \oplus \eta$	$1 \oplus \sigma$	$NU \oplus 1$	$1 \oplus \varepsilon$
in $\mathscr{C}$:	1	1	$U \oplus 1_Y$	1

between two slices the object is $(X \oplus Y,\ Y)$
